PT Faasri Utama Sakti

as an Innovative Technology Company
(since 1985)

We offers a mix of business skills and technology for you to stay ahead of competition and technology changes with delivery capabilities to generate value from your investments, go beyond just offering a cost advantage. We work to meet your expectations of quality, cost efficiency, flexibility and process innovation in your IT enablement for you to be able to meet our client expectations.

Faasri as an IT Services Provider

Faasri Utama Sakti (Faasri) is a successful IT Services company offering Exceptional IT services to medium and large sized businesses. We have a fantastic qualified team of technical and support staff who are committed to our customers and to our company culture. our services are :

- Maintenance Services
- SEAT Management
- Business Printing Solution
- Service Centre
- Network & Security

We are powered by a pool of talented IT and consulting professionals across enterprise solutions, client relationship management, business intelligence, business process quality, operations management, engineering solutions, digital convergence, product lifecycle management, and infrastructure management services, among other capabilities.

Since 1994, along with Hewlett Packard and other principal wholesalers' support, Faasri has been catering to lots of clients' needs for office automation. From home PCs to professional PCs, from dot-matrix printers to high performance LaserJets, and workgroup servers to enterprises servers. Faasri also designed, built networking infrastructures with the best equipments to clients as a stepping-stone to providing additional services for their needs.

Faasri has been offering the strong concept PC Life Cycle Management to its clients. This is a leasing concept whereby Faasri leases out the technology, and delegate the support to Professional Services Personnel, and also do the technology refreshment on the PC once the better technology becomes more affordable.

Faasri has also been offering clients the Business Printing Solutions whereby Faasri assess the printing needs of the clients and allocate the needed printers –colour and black & white- to the clients whereby they only pay what they print. Free of maintenance, free of supplies replacement. Most Valuable Client (MVC) program was launched to cater the needs of a fresh and original supplies for HP printers. The benefit of the program is to

guarantee the clients of original and always fresh supplies as well as price protection and quarterly rebate scheme.

Our Values

Customer First:

We respond to customers speedily, courteously and effectively

Good Corporate Citizenship:

We seek long-term success for all stakeholders without compromising on ethics or transparency

Data Centre

A True TIER IV Ready Data Centre

Tier 3 was when multiple power and cooling paths was added and a large stride in reducing downtime occurred. With a Tier 3, you are looking at:

- Delivery Paths (between server and Internet): 1
- Site availability: 99.982%
- Redundant Components: Power, cooling, and hardware redundancy
- Annual IT downtime: 1.6 hours

Tier 4 data centers added redundancy to the delivery paths enabling higher availability. Tier 4 is currently the pinnacle of data centers. With a Tier 4 you are looking at:

- Delivery Paths (between server and Internet): 2
- Site availability: 99.995%
- Redundant Components: Redundant power, cooling, hardware, fault tolerance
- Annual IT downtime: 0.4 hours

A Head of The Rest

Faasri offers a true Tier IV ready (running on Tier III operation) enterprise class data centers to provide a flexible and scalable foundation for the best in reliable, cost effective and secure ICT and internet infrastructure..
